

Request for Resume Release

Madison County Future, Inc. has partnered with the Madison County Chamber of Commerce and local employers to create a secure and private database for employers to review resumes of quality job seekers and those individuals who earn a certificate by completing the Madison County Workforce Credential. If you choose to have your resume uploaded to the site, include this signed form with your resume and your completed Madison County Workforce Readiness Credential packet.

I would like my resume uploaded to the secure database that employers will use to identify quality job seekers. I understand employers could reach out to me for job opportunities.
